

WEEKLY UPDATE

6-12-2020

Dear Residents and Families/Representatives,

As we approach summer and states are starting to reopen slowly, we want you to know that the staff at Prince George Healthcare continues to work hard to keep our residents safe and we are still following all recommendations of our federal, state and local health officials to prevent the spread of COVID-19.

We are happy to report that, as of today, we have no confirmed active cases of COVID-19 in our facility.

As a reminder, only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for updates. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

In addition to weekly calls and weekly COVID updates, we now have two windows designated for window visits. Please call to schedule a window visit with your loved one.

If you have any questions or concerns please contact us directly 843-546-6101, ask to speak to Patricia is Social Services.

Sincerely,

Helen Cribb
Administrator

Prince George Healthcare Center
COVID-19 INFORMATION UPDATE
6-17-2020

Dear Residents, Families, and Responsible Parties,

During this unprecedented time of the COVID-19 pandemic, when so much is changing around us, we understand the importance of communication. As such, our facility strives to be transparent and provide you with up-to-date information regarding our COVID-19 status, steps we are taking to protect our residents and staff, and any other information that we feel will keep our community informed and connected to us.

As of today, there are 0 residents and 2 staff members that have tested positive for COVID-19, only one is currently active. We are committed to stopping the spread of this virus and practice the enhanced safety precautions recommended by our federal, state and local health officials, such as, only allowing essential personnel inside the facility, performing regular screenings for signs and symptoms of illness prior to entering the building, continually monitoring residents, performing regular deep cleanings, using PPE as recommended by the CDC, providing individual activities as opposed to group activities, implementing isolation protocols as required, and reminding and encouraging staff to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community.

To ensure everyone has access to the most up-to-date COVID-19 information from our facility, we will post notifications on our facility website when we receive confirmation of a new case or when three or more residents and/or staff present with new onset respiratory symptoms. We will individually notify representatives/families regarding a resident's condition if he/she is displaying symptoms of COVID-19 or tests positive for COVID-19.
