

WEEKLY UPDATE

7-17-2020

Dear Residents and Families/Representatives,

Our staff works hard to prevent the spread of COVID-19 in our facility. We have had 6 staff members test positive and no residents test positive since the pandemic began. 5 staff members have returned to work. It has been 10 days since the last staff member tested positive. Since 6-17-2020 we have tested 9 residents and all had negative results. On May 11th we did facility wide testing and all staff and residents tested negative.

We continue to follow our federal, state and local health officials' recommendations and guidance for all appropriate precautions and preventative measures that we have reported to you on our website and previous weekly updates.

We realize how difficult it is not to be able to visit your loved ones. However, it is our responsibility to make sure your loved ones are safe as possible. We will continue with weekly calls and or Facetime visits, and letters. Please remember that we still have two window visitation stations and you can call our social service department to set up a visit. If you need assistance facilitating communication please reach out, we will be happy to assist you.

With the growing number of COVID-19 cases in certain areas of the country, it is also important to remember what you can do to help prevent community spread of the virus. You should wash your hands often with soap and water for at least 20 seconds, avoid close contact with people who are sick and people who don't live in your household by maintaining six feet of distance between you and them, cover your mouth and nose with a cloth face cover when around others, cover coughs and sneezes using the inside of your elbow and immediately wash your hands with soap and water for at least 20 seconds, and clean and disinfect frequently touched surfaces daily.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at 843-546-6101.

Sincerely,

Helen Cribb

WEEKLY UPDATE

7-2-2020

Dear Residents and Families/Representatives,

As of today, Prince George Healthcare has 3 confirmed employee cases, and 0 confirmed resident cases of COVID-19. We continue to follow the recommendations of our health officials and practice the enhanced safety measures that are listed on our website and previous communications.

We know the past few months have been a big adjustment for everyone, especially our residents. While our staff is working is very hard to make sure they are safe, we also want to make sure they are having some fun! Our residents are enjoying hallway activities, especially bingo. Please don't forget about our two window visitation stations. Call today to set your visitation time up.

As always, please continue to check our website for updates. We will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly 843-546-6101.

Sincerely,

Helen Cribb

WEEKLY UPDATE

7-24-2020

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. Since the onset of this virus, we have had zero residents and six staff members test positive for COVID-19. All staff members are back to work and doing well. It has been at least 14 days since the last staff member tested positive.

As you might already know, the federal government announced last week that it is going to send point-of-care testing supplies for COVID-19 to all skilled nursing facilities in the country. We hope this means better access to testing and faster results for our staff and residents, but we will keep you posted as we get more information and details on this development. As always, we are working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at 843-546-6101.

Sincerely,

Helen Cribb

WEEKLY UPDATE

7-9-2020

Dear Residents and Families/Representatives,

We hope everyone had a fun and safe July 4th weekend! Over the holiday, and always, our staff works hard to prevent the spread of COVID-19 in our facility. We have had 5 staff members test positive and no residents test positive since the pandemic began. 3 staff members have returned to work. It has been over 14 days since the last staff member tested positive.

We continue to follow our federal, state and local health officials' recommendations and guidance for all appropriate precautions and preventative measures that we have reported to you on our website and previous weekly updates.

We realize how difficult it is not to be able to visit your loved ones. However, it is our responsibility to make sure your loved ones are safe as possible.
